His assailant staggered back with a scream of pain. Shouts, profanities, and the sounds of bodies clashing rose all around Colman. Something hard bounced off his helmet. Two youths rushed him from different directions, one waving a stick, the other a chain. Colman jumped to the side to bring the two in line for a split second's cover, feinted with his baton, then sent the first cannoning into the second with a shove from his shield with the full weight of his shoulder behind it, and both rioters went down into a heap. "Next, I have two proposals to put to the vote of the assembly," Lechat said. "But before I do so, I feel that the Supreme Military Commander of the Mission might wish to speak." Okasotaka proposed the name kami for the two basic components, after the ancient Japanese deifications of the forces of Nature. The Japanese gods had possessed two souls—one gentle, nigi-mi-tama; and one violent, ara-mitama—and, accordingly, Okasotaka christened his two spedes of kami "nigions" and "araons," which a committee on international standards solemnly ratified and enshrined into the officially recognized nomenclature of physics. Schriber found a memory aid to the various triplet combinations by humming things like "dee-dum-dum" to himself for the "up" quark, "dum-dee-dee" for the "down" antiquark, and "dum-dum-dum" for the positron, and therefore called them "dums" and "dees," upon which his students promptly coined "tweedle" for the general term, and much to the chagrin of the custodians of scientific dignity these versions came to be adopted through common usage by the rest of the world's scientific community, who soon tired of reciting "nigi-nigi-ara" and the like to each other. Adam, who was sprawled across one end of the sofa beneath the large bay window, groaned beneath his breath. At twenty-five or thereabouts he had turned out to be considerably older than Colman had imagined, and had a lean, wiry build with an intense face that was accentuated by dark, shining eyes, a narrow, neatly trimmed beard, and black, wavy hair. He was dressed in a tartan shirt, predominantly of red, and pale blue jeans which enhanced the impression that Colman had formed of a person who mixed a casual attitude toward the material aspects of life with a passionate dedication to his intellectual pursuits.. "Well, try not to make it half the night this time, won't you." And to Pernak: "Take care, Jerry. Thanks for dropping by.
